Pricing

SLA 696	\$ 7700.00
SLA 695	\$ 7100.00
SLA 496	\$ 6800.00
SLA 396	\$ 6195.00
SLA 296	\$ 5695.00

This system is designed for ease of installation. Simply cut an opening to accommodate the pre-fabricated panel assembly. Match-drill and mount. It doesn't get any easier to have a professional avionics package installed at such a great price.

This system runs on 11-33 VDC input and is fabricated per manufacturers specs, with aircraft-approved wire, hardware, and actual Garmin installation kits. Systems 100% checked for accuracy. Tech support available.

Additional low-cost installation supplies are available (antennas, co-axial cable, BNC's, TNC's, push-to-talk, etc.). We have the products to help you complete your project.

Custom instrument panels are available upon request.
